

THINGS YOU SHOULD KNOW Villa 1 Upper...

PLEASE READ the following important information. It is provided to assist you in having a safe and relaxing vacation.

Enjoy - Go up to the top sundeck! You can usually find a nice breeze. It is great at night for viewing the stars. The light switch for the upstairs is at the bottom of the stairs. Make sure you turn off the lights when you come back down. Be extra careful of the spiral stairs to the top, some of the steps are not the same size and you could trip if you are not careful. Again, tile can be slippery when wet. When you go to the sundeck - *Please stay on the flat section only!*

Internet - In addition to all the networks we have available, my good friend owns the home next door and he indicated that we could share with our guests his internet in case ours goes down. The password to get on his internet is ccccccccc (small "c" 10 times)

Rooftop Swimming Pool - Go down a few homes to Villa 2 and Villa 3. Use the stairs that are located between the two homes for access to the roof.

TV/DVD - The guide book should have detail instructions on the operation of all the equipment. Please DO NOT re-wire our electronic equipment! If you are having problems, or something is not working, contact us.

Washer/Dryer - We also provide a washer and dryer for your use. They are located in the common area under the stairs of Villa 2. Use the dryer only on cloudy or rainy days. Clothes dryers are somewhat rare, because the sun and wind dry things very rapidly. There should be an iron and ironing board in the bedroom. The top shelf over the closet is a great place to store your suitcases.

Hot Water Switch - the switch is located outside the laundry area
